

Bubblewrap

Temprotech provide shipyards, contractors and outfitters with flame retardant protection products that meet the exacting demands of the Shipbuilding, Shiprepair and Offshore markets.

Protecting floors, surfaces or equipment and maintaining clean work environments are essential to the successful progress and completion of new building or installation projects and during periods of maintenance, repair or refurbishment.

Flame retardant protection materials can reduce dirt, spillages overspray and accidental damage, and eliminate fire hazards for a safer working environment, saving time and money on clean-up, replacement and repairs before handover.

Flame retardant bubblewrap is ideal for wrapping and protecting fragile or awkwardly shaped fixtures, fittings, furniture and equipment.

Extremely light and flexible, it provides excellent cosmetic protection against dust, dirt and scratches with additional, resilient cushioning for protection of items in storage, transit or in the workspace.

STANDARD ITEMS	
Part No.	TPT0515BW
Construction	Twin layers 60 micron LDPE film vacuum formed into 5mm bubbles
Thickness	5mm
Roll Width	1.50m
Roll Length	100m
Roll Area	150m ²
Roll Weight	19.0kg
Colour	Translucent White
Approvals	LPCB's LPS1207 with FR approval printed in black
